

Goal: Comprehensive, sustainable and effective early childhood development programmes in all member states

Indicator 1.1 Status of ECD Policy implementation

- 1.2 % of Member States with adopted policies in accordance with CARICOM Guidelines
- 2.1 Status of ECD Regulatory Framework development
- 2.2 Extent (as a %) to which ECD Regulatory Framework has been developed in accordance with CARICOM guidelines
- 3.1 % of Member States with protocols for ECD workforce training and qualification
- 3.2 % of the workforce pursuing qualification training or has received training in accordance with regional qualifications framework (target 50%)
- 4.2 % of national plans complete to reach 50% of vulnerable and poor children 0-8 completed
- 4.3 % of children 0-8 in vulnerable and poor populations access early detection and prevention services (target 20%)
- 5.1 Status of completion of the strategic plan for increasing access by children
- 5.2 % of prioritised children 0-3 and % of prioritised children 3-5 access quality care and education services (target 15% and 30%)
- 6.1 % of ECD trained teachers for children under 8 in primary schools
- 6.2 Staff child ratio for children under 8 in primary school
- 6.3 % of primary schools implementing the national plan for quality early education
- 7.2 % of children who access universal preschool education for at least one year
- 8.2 % of national plans to reach children 0-3 complete
- 8.3 % of children 0-3 accessing development and care services in a multi disciplinary framework (target 30%)

Goal: Protection of children against abuse, exploitation, violence, child labour including worst forms, discrimination and neglect in all Member States

Indicator 9. Finalisation of the COHSOD Declaration of Guiding Principles for application in all CP matters

- 10. Finalisation of the Regional Strategy on Child Abuse
- 11.1 % of countries that have a legislative reform agenda including a timeline to harmonize legislation affecting children with the CRC and other International HR based instruments.
- 11.2 % of countries with CRC compliant legislation regarding child abuse, exploitation, violence, child labour including worst forms, discrimination and neglect.
- 12.1 % of Member States that have a national policy framework for parental education and support that includes child abuse, exploitation, violence, child labour including worst forms, discrimination and neglect
- 12.2 % of Member States that implement parental education programmes covering child abuse, exploitation, violence, child labour including worst forms, discrimination and neglect
- 13.1 % of Member States that have an entity dealing with Child Labour and its worst forms
- 13.2 % of Member States that have an National Policy addressing inter alia Child Labour and its worst forms
- 14.1 Existence of the Regional Task Force for Persons with Disability
- 14.2 Existence of a Regional Strategy on the rights of Children with Disabilities
- 15 % of Member States that have specialised sessions on working with vulnerable children within in-service training programmes of the Teacher Training Colleges
- 16. % of Member States that have undertaken a multi-faceted social mobilisation process.
- 17.1 % of Member States that operate an early identification system for vulnerable children and children at risk.
- 17.2 % of Member States that operate a referral system for vulnerable children.
- 18.1 % of Member States that provide support to children at risk of dropping out of schools
- 18.2 % of children benefiting from governmental social protection support
- 19.1 Existence of a CARICOM Regional research agenda
- 19.2 Number of regional analysis and assessments undertaken.

Goal: Reduction in infant and under 5 mortality

Indicator 20.1 Implementation by Member States of the regionally agreed targets under the CCH/III

- 20.2 Infant mortality rate
- 20.3 Under-five mortality rate
- 20.4 % of births attended by skilled health personnel
- 20.5 % of Member States implementing the Integrated Management of Childhood Illnesses strategy
- 20.6 % of children who are exclusively breastfed less than 6 months

Goal: Reduction by three quarters of the maternal mortality ratio

Indicator 20.7 Maternal mortality ratio

- 20.8 % of women accessing age appropriate immunizations
- 20.9 % of Member States implementing teenage pregnancy prevention programs

Goal: Halting by 2015 and complete reversal of the spread of HIV/AIDS

Indicator 21.1 % of the population accessing HIV testing and counselling services through implementation of provider initiated (rapid) testing and counselling

22.1 % of males and females utilising condoms at last higher-risk sexual intercourse

22.2 % of the population with comprehensive knowledge about HIV prevention among young people

23.1 Counselling coverage for the prevention of mother-to-child transmission of HIV

23.2 Testing coverage for the prevention of mother-to-child transmission of HIV

24.1 % of Member States with ARV treatment available

24.2 % of patients on ARV who adhere to the treatment regime

25.1 % of those who require ARVs (including children) have access to treatment

Goal: Sustaining the advances made in the realisation of health and education targets /goals and children's rights

Indicator 26.1 % of Member States who have developed an inter sectoral implementation plans for operationalising the Port of Spain Declaration "Uniting to Stop the Epidemic of Chronic NCDs"

27.1 % of Member States which have introduced over arching appropriate education sector HIV policies

28.1 % of youth who access youth friendly health services

29.1 % of Member States which have development curriculum and education programmes based on effective strategies for behaviour change, skills development and participatory learning

29.2 % of Member States implementing such a curriculum and education programme

30.1 % of primary, secondary and tertiary level students who participate in well designed gender-sensitive health and family life skills and HIV/STI prevention programmes

31.1 % of schools which implement at least 30 hours of HFLE lessons per year

32.2 % of Member States implementing these guidelines

33.2 % of Member States implementing this policy

34 .1 Existence of a research agenda for epidemiological, behavioural, economic, operational and other innovative research areas.

34 .2 Number of analysis and assessments undertaken.

35.1 Status on the establishment of the CARICOM Regional Research and Best Practice Clearing House on adolescent and youth

36.1 % of Member States which integrate gender socialization approaches in parenting education and support services/interventions

Goal: Retention of children in school system until the secondary graduation

Indicator 37.1 % of Member States with interventions designed to maintain boys in the education of system

37.2 % of enrolled children who have dropped out, by gender and age (from 5-17)

37.3 % of children who have dropped out of the education system and who have been reintegrated successfully, by gender and age (from 5-17)

38.1 Status of gender sensitization training for (i) education policy makers (ii) education managers and (iii) teachers

38.2 % of (i) education policy makers (ii) education managers and (iii) teachers trained in gender sensitization

39.1 % of secondary school students with access to Information Technology programmes

39.2 % of schools with Information Technology available

39.3 # of secondary school students with access to Information Technology programmes

Goal: Promotion of a culture of respect for the rights of children and for ensuring a safe, stable and secure environment for children

Indicator 40.1 SitAn on Adolescents and Youth undertaken

40.2 SitAn and recommendations discussed in COHSOD meeting

41.1 % of Member States that have adopted Child and Adolescent Friendly School and Communities concept.

41.2 % of Member States that implement the Child and Adolescent Friendly School and Communities concept.

42.1 % of children involved in governance

42.2 % of children involved in programmes addressing crime and violence

43. Birth registration rate per Member State

44. 1 % of Member States that have reported on their birth registration rate

44.2 % of Member States that have 100% birth registration

Goal: Children supported and enabled to adjust to the impacts of climate change in their lives and participate actively in decisions affecting their adaptation

Indicators 45.1 Status of implementation of adaptation and mitigation measures needed to reduce impacts of climate change on

45.2 % of schools providing structured programmes in climate change education

45.3 # of children actively participating in climate change education programmes
