

St. Kitts and Nevis

St. Kitts and Nevis will join the other countries of the Caribbean in celebrating Caribbean Statistics Day on 15th October 2012. Activities for that day include a series of mini workshops throughout the day for staff members from the Ministry and as well persons from other departments. Several topics will be presented and persons are given the option to attend one or all of the sessions.

The topics to be presented on are:

- GDP made simple: interpreting what it means
- Explaining the consumer price index
- Social Statistics medley.

A press release will also be done on that day.
